Explosive British Medical Journal Exposé: Researcher blows the whistle on data integrity issues in Pfizer’s vaccine trial

Uncategorized

+ More

As citizens all over the world are coerced and mandated to receive experimental gene-based COVID-19 vaccines, revelations in the British Medical Journal reveal “poor practices” in Pfizer’s pivotal covid-19 vaccine trial, which “raise questions about data integrity and regulatory oversight.”

[Read the full article here.](#)

“A regional director who was employed at the research organisation Ventavia Research Group has told The BMJ that the company falsified data, unblinded patients, employed inadequately trained vaccinators, and was slow to follow up on adverse events reported in Pfizer’s pivotal phase III trial. Staff who conducted quality control checks were overwhelmed by the volume of problems they were finding. After repeatedly notifying Ventavia of these problems, the regional director, Brook Jackson, emailed a complaint to the US Food and Drug Administration (FDA). Ventavia fired her later the same day. Jackson has provided The BMJ with dozens of internal company documents, photos, audio recordings, and emails.”
